

SkyTab Kiosk

Serve Guests Faster with Self-Service Ordering

SkyTab POS now offers an intuitive self-ordering kiosk solution that helps your restaurant serve customers faster and increase sales.

STREAMLINED ORDERING & PAYMENTS

- Touchscreen, step-by-step prompts direct customers seamlessly through transactions, saving time and reducing errors
- Minimizes customer wait times and processes orders efficiently with digital receipts and SMS order notifications

UPGRADED EFFICIENCY

- Improves customer satisfaction by freeing up staff, allowing them to focus on great service while the kiosk handles orders
- Seamlessly integrates with your existing technology ecosystem, ensuring smooth operations between your front-of-house and back-of-house

SECURE & FEATURE-RICH

- Transactions are secured by Shift4, the leading provider of integrated payments in the foodservice and hospitality industries
- Flexible payment options allow the customer to pay their way, offering mobile wallets, EMV, NFC, and swipe transactions
